

SigmaTec Unify Supply Chain Management System A Software Solution for Business Control

**Efficient
Operations
Effective
Control**

"We were looking for a software solution that could sustain us over the long-term. We chose SigmaTec Unify SCM because it addressed our supply chain problems and concerns very effectively and comprehensively. Additionally, the financial backing of SigmaTec combined with the team's commitment towards product enhancements and customer service convinced us that this was the right solution for us. SigmaTec Unify SCM enabled us to streamline, integrate and automate our supply chain processes across geographically dispersed locations including offices, factories and warehouses and gain better control of our business."

Syed Yawar Ali
Chief Executive Officer
Wazir Ali Industries Ltd.

"We wanted a supply chain software that addressed our particular needs being a local enterprise. We knew that a global supply chain management solution may not necessarily be the best fit and may require lengthy and expensive customization. We chose SigmaTec Unify Supply Chain Management (SCM) System because it speaks our language and its functional depth addresses all our operational activities. SigmaTec Unify SCM has provided us with best practices specific to our industry and business environment. In addition, it ensures compliance with regulatory requirements such as Sales Tax and Customs Laws. Our choice was also backed by our users who embraced the new system whole heartedly allaying any fears we might have had about user acceptance."

Mr Anjum Nisar
Managing Director
Anjum Asif (Pvt.) Ltd.

Stop ruing the cost of missed opportunities and poor decisions!

Introducing SigmaTec Unify SCM, a powerful and comprehensive supply chain management solution that puts you in control of your business. SigmaTec Unify SCM integrates and synchronizes operations, providing you with information you need, when and how you need it.

It also integrates seamlessly with SigmaTec Unify Financial Management System (FMS) and SigmaTec Conduit, a system for managing your distribution network, providing a complete view across your organization and beyond.

Delivered by our implementation experts, SigmaTec Unify SCM is backed by extraordinary customer service and after sales support.

Achieve Business Benefits

- 1. Improve operational efficiency** by integrating and automating business processes.
- 2. Eliminate** the need to re-enter data between systems.
- 3. Boost cash flow** and increase margins through better planning and monitoring tools.
- 4. Assure quality standards** by linking stock movement with critical quality assurance tests.
- 5. Monitor performance** via clearly defined rules and Key Performance Indicators (KPI).
